To Whom It May Concern,

At Omar we have worked with Henry Simmons' Tranquility Park Group for approaching 10 years now. It has been a pleasure to deal with Henry and his friendly and courteous staff over those years.

Just looking at his latest park developments at Organford Manor, Whitehorse Park and Berrynarbor, it is clear to see that the Tranquility Parks offer the very best in park home living.

In Karen Mason, Henry has a park home specialist, leading the sales team with more than 30 years' of invaluable knowledge and experience in the park home industry, who can help and guide potential park home owners.

As the UK's leading manufacturer of park homes Omar are ready and excited for the launch of Tranquility parks, next blue-chip park living experience, at Woolacombe Bay in sunny Devon.

We are extremely proud to be Tranquility Parks exclusive supplier of park homes, the service that Henry and his team provide for the over 50's is second to none, so it gives me great pleasure to recommend Tranquility Parks to potential residents.

If I can be of further assistance, please do not hesitate in contacting me.
